

Do you ask your employees to use their own vehicles on behalf of your business, this includes those drivers driving to meetings or undertaking errands?

If you do how do you know the vehicle being used for your business is roadworthy and legal and that your employee holds a driving licence?

With driver consent, TTC DriverProtect can verify the status of the vehicle and confirm that the owner has a valid motor insurance policy covering business use, as well as having a current MOT, if applicable, and road tax.

The Vehicle Information is proactively managed and compliments the reporting of the Driving Licence Verification Service.

THE PROCESS:

- ✓ You will provide TTC with basic driver data i.e. E-mail address, name and date of birth
- ✓ Data is then uploaded into TTC's partner portal
- ✓ Driver will receive a grey fleet form via email enabling TTC to capture their vehicle details
- ✓ Your driver will then return the grey fleet form and scanned image of their insurance certificate
- ✓ You will receive proactive monthly management reporting from a dedicated TTC Account Manager
- ✓ We will undertake Verification checks on the insurance, MOT (where necessary) and tax.
- ✓ Issues around compliance are escalated to you by your TTC Account Manager
- ✓ We will invoice monthly for all ongoing grey fleet management monitoring
- ✓ Former employees are archived monthly

KEY BENEFITS:

- ✓ Both TTC and its partner provide ISO27001 Information Security Standard providing data security reassurance and compliance with General Data Protection Regulations
- ✓ TTC's partner are members of the Association for Driving Licence Verification Association (ADLV)
- ✓ Electronic and ongoing vehicle document verification process undertaken and expiry dates tracked
- ✓ Minimum customer administration with proactive reporting from TTC
- ✓ Protecting your business and brand reputation
- ✓ Minimising the risk of employees driving without a motor insurance, MOT or Tax
- ✓ Direct links to the DVLA
- ✓ Reporting on:
 - Vehicle detail status
 - Compliance status of all grey fleet vehicles

Suitable For:

- ✓ All businesses employing staff who drive their private vehicle on company business

Delivery Method:

- ✓ A fully managed service by dedicated TTC Account Manager providing management information reports on grey fleet legal compliance.
